PREFACE TO VOLUME FOURTEEN

This is not a catalogue, nor a handlist. It is just what is says to be on the title-page, an inventory. The present volume contains the inventory, or in more simple words, the list of all acquisitions of Oriental manuscript materials in the Library of Leiden University, which entered the Library between approximately 1973 and 1977.¹ This choice of period is determined by nothing else than the fact that the present volume comprises exactly one thousand items, which are registered as Or. 13.001 till Or. 14.000 in the 'Journaal', the handwritten inventory of the Legatum Warnerianum, which is kept by the curators in the Library. As such it is the fourteenth volume of a projected multi-volume inventory of the collections of Oriental manuscripts in Dutch collections.

A few words of explanation may be added to this. For a long while the 'Journaal' of the Legatum Warnerianum was a tool of retrieval for the Oriental collections, mostly for lack of anything better. It contains, with a varying degree of detail, basic bibliographical information about the new acquisitions. The most important elements of such a registration are the (unchangeable) class-mark (in the Or.-series), the shelf-mark (which only serves the purpose of finding the manuscript in the stacks), the language of the manuscript, and some detail about its content. In addition, the provenance of the material was noted, and often also the price paid. Especially these last mentioned elements were deemed to be confidential, at least for some time. The successive directors of the Leiden library were of the opinion that if such trade information were made available to the public it might jeopardize the negotiating position of the Library, which itself is a player of some importance on the antiquarian market. Making the names of the suppliers to the Library public, so was their opinion, would attract competitive individuals to those same suppliers, and could make it more difficult for the Library to conclude deals.

When I advised the University Librarian Mr. J.R. de Groot in the course of 1977, for precisely these reasons to close the 'Journaal' for the public, it was immediately felt that an alternative tool should be created, as it was feared that an increasing part of the collection would become unavailable for the readers in the Legatum Warnerianum. Several larger cataloguing projects have been undertaken since then. I only need to refer to the catalogues of manuscripts in Hebrew (1977), Batak (1977), Javanese (1980), Arabic (ongoing since 1982), Balinese (1986-1987), Acehnese (1994), Malay (1998, 2007, two volumes published so far), Turkish (2000-2006, three volumes published so far), and a few more projects are on the brink of completion. However, all of these catalogues have features that are different, depending on the nature of the materials described and the bibliographical requirements within a specific field of study. And these catalogues are, necessarily, not following the order of acquisition in the Library at a quick pace. For most of the above catalogues the expertise had to be acquired from outside the Library, either on a voluntary basis from the authors who were retired or

¹ After autopsy of the material a more precisely defined period can be established for the arrival of this material in the Leiden Library.

otherwise employed, or by organizing a project of cataloguing with financial support from outside the University. Irrespective of the arrangement, the catalogues would always be far behind the actual pace of acquisition. Nor would the catalogues, which are usually organized by language of the manuscripts, cover the whole of the collection. The compilation of a certain type of acquisition lists has been undertaken, for a while, but the results were not very satisfactory. And in the meantime the Oriental collections in the Leiden Library experienced an unprecedented growth, making a solution of this problem only more urgent, but at the same time more difficult to find.

In the course of 1999, I finally decided, after considerable hesitation, to make electronic inventory lists of the Oriental collections in the Leiden Library, and if necessary of those in other Dutch institutions as well. The present list is one of the results of my work and it is hoped to be useful to the Library's readers.

I will shortly explain the way in which this inventory was compiled. As the Oriental manuscript collections in Leiden and the Netherlands contain materials in more than a hundred languages, it is evident that there is no person on earth who is able to compile such an inventory by first-hand knowledge. I do have a long-standing knowledge of Arabic and Persian, and I combine this with some working knowledge of Turkish, Urdu and Malay. That is a lot, but it is not enough by far. So for a considerable number of manuscripts I have had to rely on data made available by others more competent in their own fields than I. Digital scans have been made of some of the older and more recent catalogues, and the information contained therein was often checked against the originals and then cast into the fixed format of this inventory. For the present volume this was almost exclusively done with the fourth, supplemental, volume of Pigeaud's catalogue of Javanese manuscripts (1980).² I do not, of course, claim authorship of such information, as I am only the compiler of the present inventory. Claiming anything else would be preposterous, and I cannot but advise the user of the inventory to always consult the sources to which reference is made in the entries. These may be fuller and more detailed than the entry in the present inventory, though not always. When text by others than myself is incorporated in the present inventory, I do not, of course, monopolize authorship of it. Whenever text by others is quoted, I have mentioned source and origin. On the other hand, I should not be too modest. The manufacture of the present list, however, was done by my own personal initiative and is a result of my own personal creativity. And it took most of many stamina for a number of years. Few manuscripts mentioned in the present volume were viewed by autopsy. The sheer number of manuscripts makes this impossible. At a later stage this may be achieved, but

² Th.G.Th. Pigeaud, *Literature of Java. Catalogue raisonné of Javanese manuscripts in the Library of the University of Leiden and other public collections in the Netherlands*. Volume 4, Supplement. The Hague 1980. The constant and overwhelming influx of the transcripts, which are the material described in the present volume of this series of electronic inventories, made Pigeaud decide to publish his supplement catalogue, from which I have derived, especially for the present volume, so much information. I remember Dr. Pigeaud's friendship with love and gratitude, and I consider it a privilege to have known him. As many copies of the printed edition of Pigeaud's Supplement have been lost the present internet publication of his materials makes good for this.

trying to achieve this at the present stage of inventorizing would seriously hamper the progress of the project. When a manuscript was not inspected this can, generally speaking, be seen from a simple typographical device. Whenever the indication of the shelf-mark is put between round brackets, I have not, or not extensively, inspected the manuscript itself, and its entry in the present inventory is based mostly or entirely on secondary sources, be they published or not. When the shelf-mark is put between square brackets and preceded by an asterisk, this means that I have had the manuscript in my hands, at least once but probably more often, and that the description contains elements that can only be seen in the original manuscript. Such autopsy does not mean that I am, automatically, the author of all information given under that particular class-mark. For the manuscripts described in the present volume there was sometimes important information provided by the supplier of the material. These, and the material itself, form the basis of the information contained in the present volume. The basic elements for each entry of the present inventory are: 1. class-mark, 2. language(s), 3. details of physical description, 4. survey of the contents, 5. provenance, 6. location on the shelf. Depending on the nature of the material, exceptions and divergences are made from this strict arrangement. The collective provenance of a series of manuscripts may be concentrated into a short text, preceding that series, without being repeated under each class-mark.

The present inventory is not a publication in the old-fashioned sense that it is an unchangeable monolith, just as the earlier catalogues are. Books of this sort need no longer be written in such a way. It is nothing more than a reflection of the state of research of today on the Oriental manuscripts which it contains. As an electronic book the inventory the information is kept up-to-date by updated versions. Since the inventory is published as an electronic book, it retains the powerful search possibilities which no work on paper has. For the moment this must suffice as a searching tool. On the longer term I see the development of this inventory as follows. When all descriptions and entries are completed, and after a basic editorial activity on it has been performed, a search engine will be designed which will enable the user to quickly find an answer to his or her bibliographical queries, with all the advanced possibilities of an electronic tool. At that stage the by then electronic inventory and the search engine will be made available to the public, possibly in a constantly updated version in Ter Lugt Press' website, and/or by a regular update on CD-Rom, or on whatever medium is available and more suitable by that time. Obvious advantages of linking, imaging and the like, which are now still in development, will not be avoided. In addition, it is probable that such an electronic inventory will stimulate the publication of in-depth catalogues of part of the collections. The mass of bibliographical information which is herewith provided will, I hope, also give a stimulus to cataloguers of manuscript collections outside Leiden or the Netherlands.

The materials described in the present volume entered the Leiden Library between 1973 and 1976. A separate series of numbers was reserved for them, from Or. 12.886-Or. 14.000, then from Or. 14.701-Or. 17.00. At the same time, however, the regular

acquisitions continued, and the reader of the next, the fifteenth, volume of this inventory will see that there is some overlap in time between these two streams of acquisitions.

I end with an important note. Although the inventories which I am publishing here contain descriptions of public and private collections, which will no doubt profit of the existence of electronic versions of my work, none of my inventories has ever been made at the express insistence or at the specific demand of these institutions. The very idea to compile such inventories, the invention of their format and structure, the acquisition of the necessary information from a multitude of primary and secondary sources, the way of publishing, all this is my idea and my work alone. It is therefore my sole property and I assert the moral right of the authorship of form and content of these inventories, with reference, of course, to what I have said above about the method of compilation.

A word of gratitude and appreciation may be said here to Dr. Hedi Hinzler, who some thirty years ago first made me acquainted with the vast wealth of Balinese manuscripts, which are the subject of the present volume. Her help during many years has given me the confidence to compile this inventory solely devoted to production of the Balinese Typing Project.

INVENTORY OF THE ORIENTAL MANUSCRIPTS
OF THE LIBRARY OF THE UNIVERSITY OF LEIDEN

VOLUME 14

MANUSCRIPTS OR. 13.001 – OR. 14.000
ACQUISITIONS OF LEIDEN UNIVERSITY LIBRARY
IN THE PERIOD BETWEEN 1973 AND 1977

Continuation of the series of Or. 12.886 – Or. 14.000, being transcripts of Javano-Balinese and Balinese manuscripts which were supplied between 1973 – 1975 to the Library by C. Hooykaas, The Hague. The series is continued with Or. 14.701 – Or. 17.000, below.

Or. 13.001

Javanese, Balinese, paper, 3 pp., typewritten, Latin script.
Widi Papincatan, Javano-Balinese lawbook for ecclesiastics, analecta (*cacakan*). Collection Griya Bantas, Panarukan. See Pigeaud IV, p. 120. Copied and checked by Anak Agung Ketut Rai.
[* Mal. 7305]

Or. 13.002

Javanese, Balinese, paper, 4 pp., typewritten, Latin script. Drawings of Balinese script.
Gedong Besi, tutur, Javano-Balinese religious speculations on the gods, beginning with the goddess batari Dalem Tunggal, identified with *sang hyang Sri*, who is connected with the *lesung* (rice pounding block). The text ends with a glorification of Wisnu. See also *Tutur Gong Besi*, Or. 9152, above. Collection Griya Bantas, Panarukan. See Pigeaud IV, p. 120. Copied and checked by Anak Agung Ketut Rai.
[* Mal. 7306]

Or. 13.003

Javanese, Balinese, paper, 15 pp., typewritten, Latin script.
Putru Saji, maarti, Javano-Balinese (mainly Balinese) notes on offerings connected with the soul's wandering in the world beyond the grave. Collection Puri Gede, Krumbitan. See Pigeaud IV, p. 120. Copied and checked by Sagung Putri.
[* Mal. 7307]

Or. 13.004

Javanese, Balinese, paper, 29 pp., typewritten, Latin script.
Cupak and *Grantang*, Javano-Balinese (mainly Balinese) farcical poem in Balinese *macapat* verse (*ginada, sinom, durma, pangkur, demung, ginada, pucung, dangdang, ginada, sinom, dangdang*). Collection Ida Bagus Nyoman Lepeg, Panarukan, Krumbitan. See Pigeaud IV, pp. 120-121. Copied and checked by Anak Agung Ngurah Rai.
[* Mal. 7308]

Or. 13.005

Javanese, Balinese, Sanskrit, paper, 25 pp. (pp. 58-82 only), typewritten, Latin script. A fragment only of *Siwa Tatwa*, Javano-Balinese (pseudo Old Javanese, with inserted Sanskrit *slokas*) prose compilation, tales concerning batara Guru and batari Uma, and the Pandawas, containing lessons on religion and the world beyond the grave given by various divine beings to Darmawa (i.e. Yudistira). Rare Angon is also mentioned. The text is a fragment; beginning and conclusion are missing. The transcript corresponds to ff. 97b-155b of the original. See also *Purwa Gama Sasana*, Or. 13.230. Collection Tunjuk. See Pigeaud IV, p. 121.

¶ It appears that Or. 12.853, Or. 13.005, Or. 13.067, Or. 13.225, Or. 13.320 and Or. 13.417 are all copied from the same original, and contain successive parts of the *Siwa Tatwa* from the collection of ki Dalang Rajeg of Tunjuk, copied by Anak Agung Made Sutjita.

[* Mal. 7309]

Or. 13.006

Javanese, Balinese, Sanskrit, paper, 55 pp., typewritten, Latin script. *Bhuwana Kosa*, Old Javanese prose treatise, numerous Sanskrit *slokas*, with Old Javanese (or Javano-Balinese) explanations, mentioning Siddhanta. Collection Griya Gede, Panarukan. See Pigeaud IV, p. 121. The original is dated *saka* 1878. Copied and checked by Ida Pranda Griya Gde.

[* Mal. 7310]

Or. 13.007

Javanese, Balinese, paper, 23 pp., typewritten, Latin script. *Darma Kahuripan*, Javano-Balinese treatise, on rites and religious customs, mainly concerning childbirth, mentioning numerous offerings. In the beginning *Widi Sastra Gama* is mentioned as the source of the text. Collection Mangku ring Tlengis. See Pigeaud IV, p. 121. Copied and checked by Ida Pranda Gde Made Singarsha.

[* Mal. 7311]

Or. 13.008

Javanese, Balinese, paper, 55 pp., typewritten, Latin script. Illustrations. *Pangalah Babahi*, Javano-Balinese magic, against evil spirits and illnesses, with *rajahs* and mantras, incantations. Collection Kirtya No. 269. See Pigeaud IV, p. 121. Copied on 13 April 1973 by I Ketut Windia, checked by I Ktut Suwidja.

[* Mal. 7312]

Or. 13.009

Javanese, Balinese, paper, 17 pp., typewritten, Latin script. *Malawi*, Old Javanese (Bali made?) poems (43 items) in Indian metres, giving expression to religious feelings. No. 2 is called *Malawi Kasturi*, No. 3: *Malawi Barang*; they begin with the word *malawi* (*manawi*: when (?)). Most poems are without titles. Collection Kirtya No. 544. See Pigeaud IV, p. 121. See also Or. 13.502, below. Copied on 9

April 1973 by I Ketut Windia, checked by I Made Widjana. Copied from an original dated saka 1852.

Aji Kutara Agama, Old Javanese law-book beginning with the mythic history of Werti Kandayun, king of Medang, the youngest son of rahyangta Kandyawan, who is identified with Wisnu, the author of the Agama Manu Sasana. The text contains numerous Sanskrit slokas with Old Javanese explanations, mostly referring to various offences and misdemeanours. The fines, *danda*, are always noted in gold, *su* and *ma*. In some cases death is the penalty. Old Javanese apophthegms, legal maxims, are mentioned. In a number of the cases on which decisions are given Balinese titles, such as *pasek*, are used; therefore Balinese influence on the editing of this *agama* seems

probable. In a recent colophon of 1975, the text is called *Kutara Agama Wara Ruceraca*, with reference to *Wara Ruci*, the mythical compiler of the *Sara Samuccaya*. The ending *-raca* should be read: *uwaca*, said. Collection Griya Pidada, Sidemen, Karang Asem. See Pigeaud IV, p. 198.
