PREFACE

The arrangement of the present volume of the Inventories of Oriental manuscripts in Leiden University Library does not differ in any specific way from the volumes which have been published earlier (vols. 5, 6, 7, 11, 12, 13, 14, 20, 22 and 25). For the sake of brevity I refer to my prefaces in those volumes. A few essentials may be repeated here.

Not all manuscripts mentioned in the present volume were viewed by autopsy. The sheer number of manuscripts makes this impossible. At a later stage this may be achieved, but trying to achieve this at the present stage of inventoring would seriously hamper the progress of the present project. When a manuscript was not inspected this can be seen from a simple typographical device. Whenever the indication of the shelf-mark is put between round brackets, I have not, or not extensively or sufficiently, inspected the manuscript, and its entry in the inventory is based mostly or entirely on secondary sources, be they published or not. These have, of course, always been indicated. When the shelf-mark is put between square brackets and preceded by an asterisk, this means that I have had the manuscript in my hands, at least once but probably more often, and that the description contains elements that can only be seen in the original manuscript. Such autopsy does not mean that I am, automatically, the author of all information given under that particular class-mark.

The basic elements for each entry of the present inventory are: 1. class-mark, 2. language(s), 3. details of physical description, 4. survey of the contents, 5. provenance, 6. location on the shelf. Depending on the nature of the material, exceptions and divergences are made from this strict arrangement. The collective provenance of a series of manuscripts may be concentrated into a short text, preceding that series, without being repeated under each class-mark.

I end with an important note. Although the inventories which I am publishing here contain descriptions of public and private collections, which will no doubt profit of the existence of electronic versions of my work, none of my inventories has ever been made at the express insistence or by the specific demand of these institutions. The idea to compile such inventories, the invention of their structure, the acquisition of the necessary information from a multitude of primary and secondary sources, the way of publishing, all this is my idea and my work alone. It is therefore my sole property and I assert the moral right of the authorship of form and content of these inventories, with reference, of course, to what I have said elsewhere about the method of compilation.

Or. 22.024 - Or. 22.047

Collection of Ethiopian (Ge'ez) manuscripts, purchased in October 1989 from Mrs. Ingrid Zoetmulder, a dealer in Oriental and Slavonic Christian antiquities in Delft. According to Professor L. Van Rompay, who made an initial identification of the individual pieces in the collection, 'it might well be that the manuscripts belong together and that we would have here the library of a modest monastery.' The manuscripts themselves do not seem to provide further information on this matter, however. The manuscripts had arrived from Addis Ababa, shortly before the sale.

Or. 22.052 - Or. 22.112

Collection of photocopies of Balinese and Javanese manuscripts in private property in Bali, Indonesia. Acquired from the Balinese MS Project in Leiden, in October 1989. These copies were used in the project as model for the making of the romanizations of the texts, which is the primary goal of the project. In the following, the abbreviation HKS refers to the romanized copies made in the project, meaning Hooykaas-Ketut Sangka. C. Hooykaas (1902-1979) was the original organizer of the project, in collaboration with

Ketut Sangka (d. 1991) in Krambitan, Tabanan. After Hooykaas' demise, the project was taken over by Dr. H.I.R. Hinzler, so that from summer 1979 onwards, the abbreviation HKS stands for Hinzler-Ketut Sangka.

Photographs

Collection of retakes and reprints of the Photographs of the 'Oudheidkundige Dienst', the former Archeological Survey of the Dutch East-Indies. The new exposures were made in the course of 1990 from originals, mainly kept in the Kern Institute, but also in other public and private collections in The Netherlands. All new prints were put in passe-partout and stored in 262 boxes in the Oriental manuscripts closed stacks, with the hope and expectation that the new prints would now be used for research instead of the old and often very fragile original photographs (which were returned to the Kern Institute in due course). The negatives of the retakes are kept in albums, with the prints. A database of a rather elementary nature was prepared by Mr. Roy Adams in the program Inmagic. This database is available from the desk in the Oriental MS Reading Room of the Leiden Library. Funds for this project were provided by the Dutch Ministry of Education. The project, which took place between 1990-1993, was supervised by Dr. H.I.R. Hinzler. Plans for an upgrading of the database and digitization of all images are presently (September 1999) being formulated.

Or. 22.309

Photographs, in all 15 uniformly bound albums, containing a great number of small black-and-white prints (mostly 6 x 6 cm, usually 6 prints per page).

Collection of photographs made by Paul Spies. The photographs mostly concern Spies' travels in South and South-East Asia between 1946-1960. A few series of photographs were made in the USA, the Middle East and Europe. All albums, except the last mentioned album, contain a detailed description of the contents on the fly-leaf. Often, Spies has written short captions to the photographs as well. Mr. W.P. Spies (-) was a professional photographer, who was involved with the publication of several photographic books of Dutch, local, interest. The present albums with his original photographs had come into the possession of Mr. Hans Rhodius (-1991?), who presented them to Dr. H.I.R. Hinzler.

The albums have the following contents, which is extracted from Spies' own text on the fly-leaves of each album:

1. Album A. Bali 1946; Mauritius 1948; Bali 1948, Toraja 1948, Jakarta 1948, New York/Washington, September/November 1951; Mexico, October 1951. (shelf mark F. 21)

Or. 22.332 - Or. 22.455

Collection of photocopies of manuscripts in private collections in Bali, Indonesia. The photocopies were first used within the framework of the Balinese Manuscript Project for the purpose of transliteration. When they were not needed for that purpose anymore, they were sold in May 1990 to the Leiden library. For all texts the corresponding HKS project number has been added and also the Leiden Or.-number by which the transliteration is kept. See for further explanation on this type of material: Or. 22.052, above.

German, Arabic, paper.

Two plays by Bishr Farès (1907-1963) in German translation, with an introduction by Franz Taeschner (1888-196?), with documentation materials concerning the performance in Salzburg in 1951.

(1) German, paper, cyclostyled text, 26 + 6 pp.

Scheideweg (Divergence). Spiel in einem Akt von Bishr Farès. Deutsch von Fritz Habeck. Französische Uraufführung, Paris 1950. Deutsche Uraufführung, Salzburger Festspiele 1951. First edition of the Arabic text, *Mafrāq al-Tariq*: Cairo 1938. French translation by Bishr Farès: Paris 1950. With an epilogue by the translator on the details of the translation process. Added: documentation concerning the Salzburg performance (under the direction of Richard Wegeler), with a selection from the French and German press reviews.

(2) German, paper, 53 pp.

Démesure oder Fortschritt ist das Bleibende. Orientalisches Mysterienspiel in fünf Bildern von Bishr Farès. A German translation of the French text. Carbon copy of the typescript, at the end signed by Bishr Farès. The name of the translator is not indicated. Apparently this play was not performed in Salzburg, since all further documentation in this respect is lacking.

(3) One sheaf of loose papers, containing the Introduction by Franz Taeschner, pronounced at the beginning of the performance of *Scheideweg* (see Or. 22.457 (1), above) by Bishr Farès, Salzburg 1951. Typescript and handwritten draft. With documentation materials, including six photographs of the performers, Grete Schaun, Hans Schulze and Rudolf Hofmann.

Provenance: The plays may have entered the library in December 1970 as part of the Taeschner collection (Or. 12.338 - Or. 12.464, above).

Or. 22.582 - Or. 22.623

Collection of photocopies of Balinese and Javanese manuscripts in private property in Bali, Indonesia. Acquired from the Balinese MS Project in Leiden, in October 1989. These copies were used in the project as model for the making of the romanizations of the texts, which is the primary goal of the project. In the following, the abbreviation HKS refers to the romanized copies made in the project, meaning Hooykaas-Ketut Sangka. C. Hooykaas (1902-1979) was the original organizer of the project, in collaboration with Ketut Sangka (d. 1991) in Krambitan, Tabanan. After Hooykaas' demise, the project was taken over by Dr. H.I.R. Hinzler, so that from summer 1979 onwards, the abbreviation HKS stands for Hinzler-Ketut Sangka.

Lontar manuscripts purchased in August 1991 from the antique shop 'Clothes and Things' in Ubud. Concerning Or. 22.718, the owner of the shop, Mrs. Rai, told me that her husband recently had won the manuscript in a gambling session in Griya Sindu, but that she was glad to get rid of it because she was afraid of the magical power of the text (which she could not read anyway). Or. 22.719 was purchased because of the ornamented covers, coming from Lombok.
